Feed Grain Sign-Up
For '65 Starts Today

The sign-up for the 1965 feed grain program starts today in the ASCS county office. Walter F. Bardelmeier, chairman of the Madison County Agricultural Stabilization and Conservation Commission, announced. The sign-up period will continue through March 26.

The chairman explained that the program for 1965 is basically the same as in 1964. It is voluntary, and combines corn, grain sorghum, and barley in a single contract. Payment to farmers will qualify for diverted acre and price support payments, and will be eligible for price support loans.

Farmers who take part in the program will receive 20% of the base amount or acreage as 20% of the farm's feed grain base or as large an acreage as 50% of the base or 25 acres, if this is larger. Two rate options are offered to farmers. The lower rate applies to the first 20% of the feed grain base actually diverted. The higher rate applies to the acreage in excess of the minimum. If both the intended diversion and the acreage actually diverted are equal to at least 20% of the base, the higher rate applies to the entire acreage diverted.

The 1965 program includes new provisions which provide an opportunity to substitute feed grains for wheat when feed grains by growers who take part in both programs. Full details are available from the office at the county ASCS office.

Applications to take part in the grain program may be filed at the county office from Mondays through Fridays at any time between the hours of 8 a.m. and 4:35 p.m.

An Open Letter... to all Granite Cityans

In the true American tradition, I'm asking my Boss . . . you the public . . . for a promotion.

I want you to promote me from my present job as Assessor to the job of Granite City's first full-time Mayor.

What have I done to merit such a promotion?

I served you as Alderman for seven years and the past eight years as your Assessor. Prior to becoming your Assessor, I was in the Industrial Engineering Department at Granite City Steel Company.

During that fifteen (15) years, I have studied our City government as diligently as any other professional man (lawyer, doctor, etc.) ever studied to prepare myself for a life of public service.

Why did I study the workings of the City government? Because I believe firmly that the job of Mayor of Granite City desperately calls out for a professional man and not an amateur. The next Mayor must be as professional and competent as our system can produce . . . a man who will devote 24 hours a day to the job. I am willing to do just that.

I believe that my training and experience qualifies me above all the other announced candidates that are now in the race.

But I also believe that professional competence is not enough. Our next Mayor must have big dreams of our town's future. We must plan big and we must perform big.

What is my dream for Granite City's future? In answer, I should like to divide my goals in two steps, (1)—What can we do in the next four years and (2)—What the future holds for us from now until the year 2000 . . . which is only 35 years from now.

In outlining the next four years in this Open Letter, I will tell not next week . . . but rather give you an outline of what I hope to accomplish . . . with your help . . . through 1970.

I believe we can successfully solve our traffic problem in the next four years.

This will mean that we will start and carry through a program which will make it possible, for any driver to travel from one end of our City to another on wide streets without dodging in and out and yet allow adequate parking. We can . . . and will . . . provide free off-street parking in our central business district, which will make it more of a pleasure to shop and will insure the continued growth of our downtown area that produces nearly 18 per cent of our total tax income.

I will take the initiative in working out a plan for regular meetings of the heads of all our governmental bodies . . . the Mayor, the president of the Park District, the School District, the Housing Authority, etc., so that we can be sure that we are working towards the same goals.

So that Granite City can benefit from the tremendous bank of talent which is employed at our giant industrial plants, I propose to select an Advisory Cabinet made up from the Union's and Management's best brains to help me in drafting programs for the future growth of our City.

I propose the creation of a department of the City government which will be charged with the responsibilities of beautifying our town. In this area, I will push for the building of a Civic Center, which would become the cultural and artistic heart of our community.

All the other problems facing our City, such as drainage and sewers, engineering and legal advice, etc., will be covered by me as the campaign develops.

Now, for how I see Granite City in the year 2000! And remember this, what we do in these next four years could very well decide whether or not we can reach our goals.

I see Granite City in the year 2000 as reaching from its present boundaries eastward to the bluffs of Edwardsville, with an exciting and thrilling complex of modern 21st Century developments sparked by our own deeds and those that will be made possible by the development of the Southwestern Illinois University Campus now rising full of promise from the farm land to the East.

To the West, starting from the Canal and the Granite City Port Authority's fast-expanding facilities there, I see . . . and dream of . . . an industrial expansion northward that will zoom our employment ranks more than ten-fold and make possible a population expansion reaching into the hundreds of thousands.

I ask your help in making these dreams come true. The fulfillment of these dreams . . . and we must first have dreams before we can make them come true . . . will assure the future of you and your children. Our greatest danger, as I see it, is in not dreaming dreams big enough,

Yours sincerely,

Von Dee Cruse
Candidate for Mayor of Granite City

Madison at Granite City Tomorrow Night

Trojans Top Roxana for 10th Win; Warriors Take 2 More Setbacks

They win when they think about it, but Madison Trojans well remember the 62-0 football drubbing they took last fall from the Granite City Warriors. Madison high's basketball team will be trying to return the favor tomorrow night.

The old rivals meet at 8:30 p.m. tomorrow in the GCHS gymnasium, following the 6:45 p.m. junior varsity preliminary. Neither team is having a spectacularly successful season and Lawrence McCouley, Granite City principal, said plenty of tickets are available and will be on sale at the door.

While Granite City has ruled the football wars between the two Quad-City schools, Madison has had its share of successes, too, with a 7-3 record this year.

In the past decade, the Trojans have won 13 of 17 regular season games between the schools. Ten years ago, in 1954-55, Madison won 13-10, 1955-56 and 1956-57 and went on to win the next seven games in the series.

Granite City finally won the series in the 1958-59 campaign 61-48. The Warriors' fine 1959-60 team beat the Trojans twice—70-68 on January 18 and 87-83 on February 15. Madison won 17 and Range 14 Saturday night.

MADISON STANDS 18

Madison's Trojans improved their record to 10-10 with a 77-65 victory over Roxana Shells in Midwestern Conference play at MHS. The Trojans now are 4-3 in league games with Highland (4-3) still in first place.

Then Don Freeman emerged as a Madison star, leading the Trojans to triumphs of 71-52 and 80-75 in the 1960-61 and 1961-62 when the rivals decided to play just once during a season. Granite City won 64-40 in 1960-61 and the season took just seven games.

Madison Stands 18

Madison's Trojans improved their record to 10-10 with a 77-65 victory over Roxana Shells in Midwestern Conference play at MHS. The Trojans now are 4-3 in league games with Highland (4-3) still in first place.

The record of Granite City's Warriors dropped to 5-15. They lost to the Shells on a 77-65 encounter on Friday night and the Wood River Oilers were 68-51 Saturday night. Both were road games. The Warriors are 1-3 in the Southwestern Conference, winless in 11 outings.

Cochran Earl McClanahan's Trojans had a respectable pace in the first three quarters, but made four foul shots in the first period, nine of 12 in the second and eight of 10 in the third. They finished the Shells' managed only 18 of 50 for 26%.

Paul Lusk paced the wins with 24 points and the Madison shorthanded team had 10 field goal attempts. Dale Turner scored 18 and Bob Fouts 17 while Gary Peter led Roxana with 15.

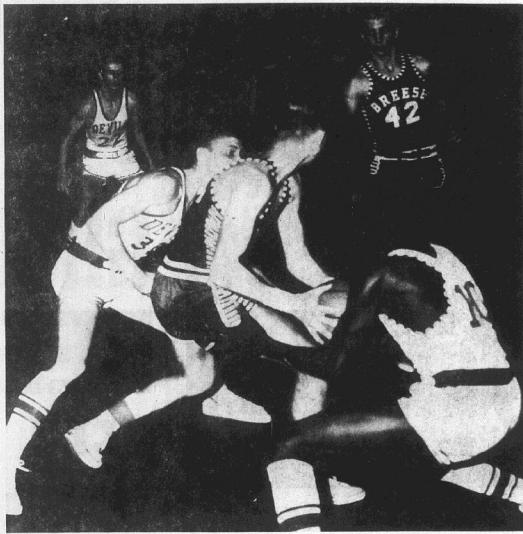

The Madison Jaycees won 57-49 as they made 37 of 45 free throws. Scoring were Tom O'Neill with 13, Ray Burt 12, Alton Hensley 10, Jim Schenck five and Steve Sheneck five.

Decided on 18

At Dupo, both the Tigers and Warriors made 26 field goals but the host team was more efficient at the foul line. Granite City's Dupo made 17 of 23 foul shots to Granite City's 12 of 17.

No. 2 Warriors' starter Joe Grivard had to leave Jerry Lybarger, who was in sub-part condition due to illness last week; Grobostik, however, managed 11 points and 10 for GCHS before Vince Debevc's 19 and Larry Ripka's 13.

At Wood River, the Oilers' Terry Brinkman had 25 points as his team made 24 of 47 field shots to the Warriors' 22 of 33.

Miss Carol Bono Becomes Bride of Kelly A. Grimm

The wedding of Miss Carol Bono and Kelly A. Grimm took place Saturday morning at Sacred Heart Catholic Church.

The bride is a daughter of Mr. and Mrs. Edward Bono, 2545 Waterman Avenue, Mr. Grimm's parents are Mrs. and Mrs. George Grimm, 2912 Iowa street.

Mr. and Mrs. David Yost officiated at 10 o'clock in a setting of white gladiolas, pom poms and ferns.

A gown of gardenia white taffeta was worn by the bride. The fitted bodice was designed with a belt of beaded neckline and bracelet bodice. The long, full, belled skirt, floor-length, had a sweeping chapel train. Motifs of Alencon lace and small rosebuds of matching fabric trim the bodice and skirt and a large fabric rose at the waist gave back interest. The bride's bouquet consisted of gardenias and roses.

A young girl in a blue and white patterned silk illusion was held in place with a crown of roses, crystals and pearls. Her bouquet, an off-white carnation, was covered with small white orchids and garnished of variegated ivy. Mr. Bono gave his daughter in marriage. Miss Gerry Grimm, the bride-

groom's sister, as maid of honor, and Janet Bono, a sister of the bride, junior maid, were dressed alike in long gowns of heart-beat lace and satin petticoats with moss green sashes. The maid of honor, wearing a blue dress with bows at the waist, kept the bride's train. The flower girls, wearing white gowns with bows at the waist, kept the train.

Mr. and Mrs. Russell Marli were best man and the corps of groomsmen and ushers included Michael Chosich, the bridegroom's cousin; Tom Bulther and Robert Hinze.

For her daughter's wedding Mrs. Bono wore a pink brocade sheath dress with matching jacket and blouse accessories. The bridegroom's blue sheath trimmed with Alencon lace and matching accessories. Both mothers wore white lace.

A reception was held at the Rose Bowl and the newlyweds left later for a honeymoon at the Hotel Oklahome where they will make their home at 1534 Niedringhaus avenue.

The former Miss Bono is a 1960 graduate of Granite City high school. She is employed in the offices of the Granite City Steel Co. Like his bride, Mr. Grimm was graduated in 1963 from the local high school and is employed by Granite City Steel Co.

Election Tomorrow

McBride Says Steelworkers Not Split Over President

"The area steelworkers are not split over the issue of selecting the next president of the United Steelworkers of America," Lloyd McBride, director-elect of District 34, told the Press-Record Friday.

"The fact is," he continued, "that the steelworkers leaders in every local union in southern Illinois are solidly supporting L.W. Abel for president. Walter Burke for secretary-treasurer, and Jerry Mander for general secretary."

Up to now, this support has been made by the so-called "McDonald committee." An example of this is a letter reproduced in the Feb. 10 edition of the Daily Herald which states that Mr. C. E. "Corky" Townsend has agreed to support their candidate editorially.

Upon being asked if this support is the result of this committee, McBride said, "This is the spread of the 'strike fear'."

"I, along with a majority of the International Union Executive Board, expressed in terms of our belief that the strike is unnecessary and that we are members of the International Committee to elect Abel-Burke-Molony. Each of us feels sincerely, that the election of Abel is team in the best interest of our local union and its members."

"In any event, I, as the new director-elect for District 34 intend to do everything in my power to support the International Union, anyone who would express or have this fear is either ignorant of the facts, or is deliberately misrepresenting them."

Local Team Prevented Strike

"Since the local union's responsibility in this industrial area for the past 18 years, and have served as chairman of the local union's executive committee during that time, I have first-hand knowledge of how this was accomplished and who was responsible. It certainly was not McDonald. He was instrumental, along through the hard work of dedicated and enlightened local union negotiations committees, Sub-District leadership, and an enlightened and fearless district director."

"I should note that while strikes were taking place in the plants in the northern Illinois Sub-District without strikes. When things such as this occur, it is the responsibility of the local union's executive committee to bring around the clock and sometimes for as many as 30 hours to come to an agreement as well as to encourage bargaining teams having an enlightened attitude and being willing to work out a hard to achieve but fair agreement."

"In the event McDonald is defeated and Abel is elected, the local bargaining committee will have greater freedom and responsibility in the Tri-City Council to improve their local working conditions, and perhaps."

Mr. McDonald has chosen running mates who, in event of his demise, would be incompetent to serve as chief executive officer.

The record of Al Whitehouse of Cincinnati, director of the smallest U.S. district, continues nothing to indicate he has the qualifications for the secretary-treasurer post he seeks, let alone the presidency. His district has not grown and has operated in the red for the past 20 years.

Howard Hogue, the incumbent vice president, was not even a member of our Union until his boyfriend, David J. McDonald, hired him as his personal secretary and he thereupon joined the office workers local. He has never organized a local, never processed a grievance, never walked a picket line and has virtually no collective bargaining experience.

We would all shudder if Hogue's hand were at the helm.

Mr. McDonald has insisted on policies which sap the morale of staff members and local union officers and thus weaken the entire union.

Contract talks have been shut off before local conditions could be settled with the result that many local unions have been in open revolt against existing contracts.

Staff members who have opposed him have been threatened with reprisal, and in some instances transferred to areas where they are little known.

Elected officials have been bypassed and the McDonald Police Guard given, in addition to technical duties for which they are qualified, policy-making responsibilities for which they are not.

Union representatives are denied access to information to which they are entitled, including data on contracts and their application.

No man has been better treated by any organization than David J. McDonald has been treated by the United Steelworkers of America. He never got a callous on his job, never walked a picket line except for the benefit of photographers, never held a local union office. He has been on the USWA payroll almost from the day rank-and-file members began shelling out enough dimes and dollars to provide one. He has been honored with the Union's highest office.

Mr. McDonald has lost touch with the Union. He has had his well-publicized day. It is now time to move forward without him.

The steel company would—correctly—feel he was in their debt . . . and could not resist the temptation to try to get repaid in the form of a poorer contract.

Having lost the support of a majority of his own Int'l Executive Board and the majority of local union officers, he would be in no position to convince management that he represents rank-and-file sentiment. Neither is he in position to persuade the Wage Policy Committee to accept an inferior settlement.

This is the kind of impasse which can lead to a breakdown of collective bargaining.

INT'L. COMMITTEE TO ELECT ABEL-BURKE-MOLONY

United Fund Annual Meet

To be Held Tuesday Night

The United Fund of the Tri-Cities will hold its annual membership meeting Tuesday night at the YMCA. It was announced by N. R. Brink, fund president.

He stated that all persons who contributed to the last annual fund drive are members and are urged to attend to elect new board members.

A committee will nominate candidates at the meeting, and

three-year terms are Eugene Cockett, Lennie Cockrell, Mrs. Cecil Dant, William F. Hoelscher, Kenneth A. Morris, II, William F. Hoelscher and Shirley Schaefer.

Those of 19 directors are to expire and new directors are to be named for three-year terms, while four other directors who resigned will be replaced by part-time terms.

Completing three-year terms are Eugene Cockett, Lennie Cockrell, Mrs. Cecil Dant, William F. Hoelscher, Kenneth A. Morris, II, William F. Hoelscher and Shirley Schaefer.

Gen. Simpson, head of the Army's Mobility Equipment Center, St. Louis, said arrangements were made through the office of Col. Charles B. Schweizer, depot commander.

The conference will start at 7 p.m. with a brief business meeting followed by an informal, informal review of the work involved in proposed contracts will be presented. Contractors will be invited to exhibit their products and personnel, labor, services, supplies and make available all facilities and equipment that would be necessary to furnish engineering services for the Lighter Amphibious Resupply Cargo V, LARC XV and LARC L.

The vehicle is basically designed to transport cargo to land from a ship lying offshore. It has been achieved through the method of barging used in the Granite City Sub-District of United Steelworkers of America. Many attempts to misrepresent the area steelworkers are being made by the so-called "McDonald committee." An example of this is a letter reproduced in the Feb. 10 Daily Herald which states that Mr. C. E. "Corky" Townsend has agreed to support their candidate editorially. Upon being asked if this support is the result of this committee, McBride said, "This is the spread of the 'strike fear'."

Working Mothers to be Asked About Child Care

As a result of a survey this month of working mothers to determine arrangements made by them for the care of their children.

The survey, on which a questionnaire will supplement the regular monthly inquiries on employment and unemployment obtained for the U. S. Bureau of Labor Statistics, Mrs. Josephine L. Luster of Edison, will interview families in this area.

Information will be collected during the week of Feb. 15 from selected households. Questions asked will include who usually looks after the child while the mother is working, the age of the baby, the number of hours a week the child was cared for under the arrangement, if the arrangement was made at the time the mother was away, and if no, who looked after the child the rest of the time, and the pay for the care of the child.

WATER for BETTER LIVING

Confidence! Every good salesman knows that the mark of a good product or service is the customer's confidence in it. For example, how many times have you turned on your faucet in the dark of night and taken a drink of water? That's confidence. How many times have you stepped into your shower and turned the spigot without thinking that perhaps the water wouldn't flow? You knew it would... and that's confidence. In fact, how many times do you use water during the day without giving a thought to its purity, clarity, and abundance? That's confidence of the highest order. All good manufacturers and salesmen spend endless hours building confidence in their product. We value highly your confidence in our product.

Reluctant Victim Puzzles Police

Police Chief DeWitt of Venice said last week he had released a suspect held in a \$500 robbery that occurred in Venice last month because the victim had no complaint and the sign he would not testify against the suspect. DeWitt said lack of cooperation by the victim, who was a woman, had been a serious handicap to police officials in prosecuting criminals, who complained that \$500 was collected in the suspect's name throughout the Cahokia Mount

Council area in Madison and Bond counties according to Henn, council commissioner. The February Cub Scout Blue and Gold banquet will also feature recognition ceremonies for achievement awards and an announcement of summer time plans for many Packs in the Council will be the testing of the proposed Cub Scout swim plan.

In March, January's January's pack will be the first to delay processing the return and filing of tax returns until the end of the year.

During January, the office handled 54 cases, up nine, involving families with 185 persons, up 46. The December totals were 45 with 159 persons and costs of \$4476.

"In conclusion we had the right man in this case, but the state's attorney's office told me we had no case against him if Lane would not admit a complaint," DeWitt said. "I had no alternative but to release him," DeWitt said.

Social Security Number Required on Tax Return

Social Security numbers must be listed on federal income tax returns filed with the Internal Revenue Service, starting next year. If both husband and wife have incomes, each should list a number on a joint return, but if only one has an income, only his number should be listed.

Jay G. Philpot, district director of Internal Revenue in Springfield, said Social Security numbers are being omitted on some returns. "Taxpayers should double check to assure that the numbers are complete and accurate," he said.

Omission of the number will delay processing the return and is time consuming and inconvenient for taxpayers and the government, Philpot said.

If a taxpayer does not have a number, he should ask the nearest Internal Revenue office for application form SS-5, which also may be obtained from most local post offices.
